To whom it may concern:

RE: UK Coronavirus Cancer Monitoring Project.

I am Cancer Research UK's Chief Clinician and senior group leader at the Francis Crick Institute and UCL Cancer Institute. It is critical that during this Coronavirus pandemic, it is important to safeguard and maintain the safety of cancer care for patients with cancer in the United Kingdom.

The UK Coronavirus Cancer Monitoring project is a public health evaluation project which will enable the community to track cases and outcomes of cancer patients with coronavirus.

CRUK believes that this is a really worthwhile project and we wish the team every success in this clinically important endeavour. We will work closely with all clinicians involved to rapidly enhance our understanding of the impacts of cancer and the therapies used to treat it on the outcomes with COVID-19.

Yours sincerely,

**Professor Charles Swanton, MBPhD FRCP FMedSci, FRS**  
Royal Society Napier Professor  
Senior Group Leader, UCL & Francis Crick Institute  
CRUK Chief Clinician
